2024 Environmental Education Donation Request

Beaver County Conservation District is seeking donations to help support our ongoing and expanding environmental education offerings to the students, residents, and visitors of our county. Over the past two years we have asked for sponsorship of our Mobile Education Center, our County Envirothon, and our fieldtrip programs which we offer to student groups free of charge. We reached more than 5,000 individuals last year through separate events and programs, some of which we hosted and others which we were invited to as presenters. Requests for new programs from us are growing faster than ever.

Sponsorship donations allowed us to create our Mobile Education Center in 2021, and then improve on it with new interior lights, air vents, and a Velcro wall in 2022! In 2023 donations allowed our interns to create an interactive display for kids showing the importance of pollinators and a craft to build butterflies. Donations also allowed us to expand our display with a tent.

Donations may be used for continuing or improving existing educational offerings, such as:

- Displays and maintenance of our Mobile Education Center travel trailer.
- Materials to support our elementary school coloring contest and Birth of a Tomato/Birth of a Tree programs.
- Envirothon event supplies such as food, t-shirts, awards, and also the costs to send the winning team to the state competition.
- Equipment used during fieldtrips to conduct stream surveys or other hands-on field studies.
- Materials to expand or update classroom displays.
- General costs associated with current equipment, materials, and staff.

Donations may also be used in the creation of new programs and educational offerings, such as:

- Materials for the production of new videos for our existing YouTube channel.
- Creation of new traveling programs and presentations for community events, school STEM/STEAM Days, Boy Scouts and Girl Scouts merit badge programs, and other outreach activities.
- Creation of new fieldtrips and programs beyond our current offerings to meet the recently updated state curriculum standards.

Beaver County Conservation District

156 Cowpath Road, Aliquippa, PA 15001

Your support helps to ensure that students in Beaver County continue to have access to hands-on environmental education programs and get to experience new learning opportunities in their own communities!

If you have any questions regarding our educational offerings, please contact me at jeff.pflug@bccdpa.us for more information.

Thank you for your support!

Jeff Pflug
District Manager
