No-Till Drill Rental

General Guidelines

Lessee (Customer) must complete a RENTAL AGREEMENT form and submit along with a \$50.00 deposit to the district before being put on the schedule and transporting equipment. Check Only

Rental equipment is scheduled on a first come first served basis. The district reserves the right to alter the schedule to minimize road wear on equipment

Lessee is responsible for transporting the equipment to and from the District office unless other arrangements have been made. The District will deliver the drill upon first time use.

A heavy duty (3/4 ton or larger) truck is required to transport the equipment. Safety chains must be fastened to the truck's frame or hitch. Proper insurance coverage must be held. No interstate-hauling, maximum on road speed is 25 MPH.

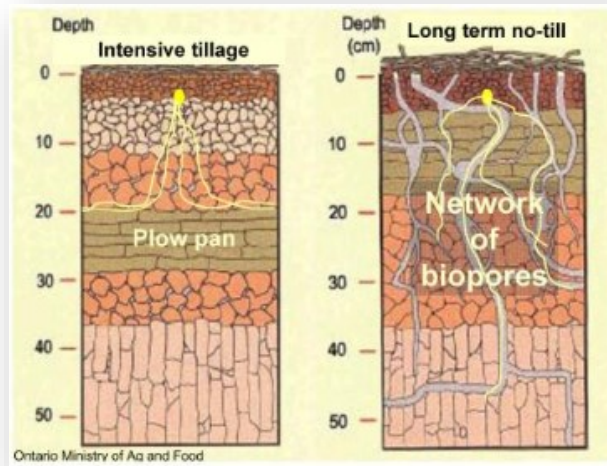

A 55 horsepower or larger tractor is required for operating the drill. One set of hydraulic remotes is needed to operate the drill.

The Lessee will store the equipment in a covered building when not in use.

The drill is not to be used to apply fertilizer.

The Lessee is responsible for cleaning drill.
Lessee is responsible for any damage.
